Capabilities deck · 3D characters, creatures and props for games

Studio founded 2017 · Jaipur, India · Credits on AAA and indie titles

QUALITY AND TIMELINE, ALWAYS.

Brothers Interactive is a 3D game art studio specializing in high-quality characters, props and weapons for games. Since 2017 we have collaborated with Saber Interactive, Thunderful, Midwinter, Slipgate Ironworks and many more, delivering detailed, refined, engine-ready assets for indie and AAA titles.

We provide 3D modeling, sculpting, texturing, skinning, rigging and engine integration support. Whether you are an indie developer or a large studio, we bring professional and reliable art production to your pipeline.

EYE-CATCHING ASSETS FOR YOUR GAME

01

3D Character Design

Realistic and stylized characters from concept to game-ready: sculpt, retopology, UVs, bakes and textures to your budget.

02

3D Props & Weapons

Hero props, weapons, vehicles and modular kits that hold up in close-up and stay lean in engine.

03

Texturing & Materials

PBR and hand-painted texturing matched to your existing material library.

04

Skinning & Rigging

Production rigs and weights tested against your animation set for Unreal or Unity.

05

Hair & Grooming

Hair cards and groom variations with LOD-friendly layouts and clean flow maps.

06

Optimisation & Integration

LOD chains, collision, material setup and import validated in a real engine scene.
